

The brand book.

Reach what's next.

One identity. Every next expression.

The whole system, at a glance.

Start with the signature. Build with the system. Express it in context.

- 03 The brand
Positioning / voice
- 05 The signature
Logos / space / size
- 10 The palette
Color / contrast
- 13 The system
Type / grid / imagery
- 22 The applications
Ads / social / print
- 28 The handover
Export / assets / references

The overview is a mood reference. The exact colors, typefaces, and dimensions on the following pages are the production specifications.

Creative direction. Engineering ownership.

An independent studio for your business's next move.

01

Make it distinctive.

Visual craft that makes the business recognizable.

02

Make it work.

Websites, digital products, and connected AI systems.

03

Make it yours.

A direct founder relationship and source-code ownership.

For founders and growing businesses. Confident, technical, human, and understated. The core line is “Reach what’s next.”

Sound like the person building it.

Plain words. Specific outcomes. Confidence without exaggeration.

Say this

**“Your website.
Your source code.”**

Direct / ownership-led

Avoid this

**“Unlock limitless
digital excellence.”**

Abstract / agency cliché

Say this

**“Less busywork.
More possibility.”**

Human / outcome-first

Avoid this

**“Guaranteed 10× leads.
Only two slots left!”**

Unverified / manufactured urgency

Ads: one clear idea.

Proposals: scope and facts.

Support: calm and helpful.

A signature, in four arrangements.

Use the supplied masters. The geometric symbol stays separate from the wordmark.

Horizontal / light backgrounds

Horizontal / dark backgrounds

Stacked / portrait & square formats

Symbol / avatars & established brand contexts

Direction, drawn with precision.

Ascent

The arrow expresses reach and forward ambition.

Structure

A central pillar connects the geometric N and R forms.

Restraint

One monoline drawing. No lettering inside the symbol.

Master viewBox: 120 × 150

Stroke: 7.5 SVG units

Round caps / round joins

Scale the entire SVG proportionally. The master paths, rather than a reconstruction or approximate angle, define the emblem.

Space is part of the signature.

Keep at least 1X clear around the visible emblem or complete lockup.

X = arrowhead height.

30 units in the 150-unit master canvas.

For lockups, derive X from the scaled emblem. Protect the entire group, including the wordmark.

No type in the exclusion zone.

No graphic edges through the mark.

Use more space when the layout allows.

Small enough to fit. Big enough to read.

Symbol

20 px high

Digital minimum / 6.25 mm high in print

Horizontal

120 px wide

Digital minimum / 28 mm wide in print

Stacked

80 px wide

Digital minimum / 20 mm wide in print

Campaign recommendation

On a 1080 px ad, start at 240 px for the full lockup. Judge it at a 360 px phone preview.

Use the supplied favicon and avatar assets for tiny UI placements. Do not squeeze in the full wordmark.

Digital minimum previews are rendered at their stated CSS sizes on screen; print and device scaling can change their physical size.

Recognizable means consistent.

✓ Keep the master

✗ Stretch the proportions

✗ Rotate the signature

✗ Add glow or shadow

✗ Recolor outside the palette

✗ Hide it in low contrast

Also avoid redrawing the paths, changing stroke weight, adding letters inside the symbol, or cropping the identifying logo.

Warmth, with a technical backbone.

Terracotta Rust #C76B50 RGB 199 / 107 / 80 Signature & graphic emphasis	Deep Charcoal #2A2A2D RGB 42 / 42 / 45 Dark canvas & primary text	Warm Canvas Cream #F5F1E9 RGB 245 / 241 / 233 Light canvas & reverse text	Stone Gray #A69D92 RGB 166 / 157 / 146 Quiet detail on dark surfaces	Pure White #FFFFFF RGB 255 / 255 / 255 One-color marks & clean contrast
---	---	---	--	---

Deep Rust / #97402E

Accessible small text and buttons on cream.

Soft Rust / #E58D72

Accessible small text and buttons on charcoal.

The five core colors follow BRANDING.md. Functional rust shades come from the live homepage. Legacy asset backgrounds are not new palette tokens.

Three expressions. One palette.

**Engineered
with care.**

Dark / technical & product-led

**Room for
what's next.**

Light / editorial & human

**Make the
next move.**

Rust / a large-format statement

Neutral canvas first.

One accent focal point.

Terracotta carries recognition.

Treat the rust canvas as a display composition. Move small essential copy to a charcoal or cream panel.

Beautiful is also readable.

Measured WCAG contrast. Body and button text need at least 4.5:1; large text needs 3:1.

Aa

Charcoal on cream

12.70:1 / body & display

Aa

Soft rust on charcoal

5.71:1 / body & buttons

Aa

Deep rust on cream

6.04:1 / body & buttons

Aa

Signature rust on cream

3.30:1 / large text only

The practical rule

Keep signature rust in the mark. Use functional rust for small copy.

Stone on cream is 2.37:1: decorative use only. Stone on charcoal is 5.36:1. White on signature rust fails normal-size text.

Three voices. Clear roles.

Display / Cabinet Grotesk

Make the next move.

ABCDEFGHIJKLMNOPQRSTUVWXYZ / abcdefghijklmnopqrstuvwxyz / 0123456789

700 to 800 weight / tight tracking / short headlines

Body & interface / Plus Jakarta Sans

Good ideas deserve good engineering.

400 to 600 weight / natural tracking / calm supporting copy

Technical detail / JetBrains Mono

Design → Build → Launch

400 to 500 weight / specifications, metadata, and code

Use the bundled font files, not lookalikes. Preserve supplied logo artwork instead of resetting its wordmark.

A headline, not a paragraph.

Starting sizes for a 1080 px social canvas. Scale the whole hierarchy when adapting formats.

Cabinet / 88 to 112 px / 0.95 line height

Reach
what's next.

Jakarta / 36 to 40 px / 1.4 line height

Websites and digital products
built to move your business forward.

Mono / 28 to 32 px / 1.3 line height

Websites / AI / Digital products

Headline: 3 to 7 words.

Support: 18 words or fewer.

One CTA: 2 to 4 words.

Display tracking: -0.04em. Body: 0. Labels: +0.06em. Use sentence case; avoid condensed caps and long mono paragraphs.

A framework, not a formula.

12

columns for campaign masters

72 px

outer margin on a 1080 px canvas

24 px

gutters between columns

8 px

base spacing unit

Spacing scale: 8 / 16 / 24 / 32 / 48 / 64 / 96. Align type and images to the live-area columns. Mobile layouts simplify to one column.

One idea. Three ways to frame it.

Reach what's next.

[Start a project ↗](#)

Type-led

For positioning & founder ideas.

Keep a dominant focal point and generous negative space. The service can change; the identity, type hierarchy, and grid stay familiar.

A website worth booking.

[Explore the demo ↗](#)

Image-led

For a service in its real context.

Fixed-scope websites

From ₹5,000.

One clear starting point.

[Chat on WhatsApp ↗](#)

Offer-led

For one package & one next action.

Show the world the work belongs in.

Hospitality / tactile detail, directional light

Services / calm, credible environments

Premium / structure, material, atmosphere

One subject per frame.

Natural light & real texture.

Space for the headline.

Existing demo images illustrate direction, not client endorsements. Use original project photography or properly licensed images for new campaigns.

Let the image breathe.

Natural color

Default for services & case studies.

Monochrome

For a quiet, editorial statement.

Directional scrim

Darken the text area; preserve the subject.

Crop for focus. Never crop away the story.

Place type in quiet space. Check actual contrast. Avoid heavy color casts, gratuitous blur, or filters that hide the work.

Structure is the graphic language.

Thin rules: 1 to 2 px at 1080.

Grid opacity: 4 to 8%.

Keep artwork behind the message.

Use simple architectural geometry, not decorative tech clutter. No neon halos, random blobs, generic AI brains, or competing accent colors.

The identity should work, too.

Your next move starts here.

A focused website, a useful product, or a workflow that gives time back.

Start a project ↗

See our work ↗

Project name

Your next project

Interactive specimens only; no information is submitted.

Sharp, calm surfaces.

Campaign frames: 0 px radius.
Controls: 0 to 4 px radius.
App icons: use the supplied squircle.

A clear next action.

Primary: deep rust + cream.
Hover: a subtle tone change.
Focus: a visible 2 px outline.

Default

Disabled

44 px minimum touch target.
Never communicate state through color alone.

Move with purpose. Then settle.

01 / Prepare

Small distance. Clear hierarchy.

02 / Resolve

Reveal the next piece of information.

03 / Rest

Leave the message still and readable.

180 ms

Hover & pressed feedback

400 to 600 ms

Single entrance or scene change

Ease out

cubic-bezier(.23, 1, .32, 1)

Animate opacity and transform. Avoid constant spinning, flashing, or motion behind body text. Reduced-motion users receive a static or instant transition.

A feed that looks like one studio.

Editable vector masters and matching PNGs. Change the message, not the identity.

Your business.
Online.

FIXED-SCOPE WEBSITES

From ₹5,000.

One focused page. One clear next action.

Chat on WhatsApp ↗

After approved scope, content and assets.
nextreachstudio.in

4:5 / offer-led

Editable SVG ↓

Reach
what's next.

Websites, AI and digital products
built to move your business forward.

Start a project ↗

nextreachstudio.in

1:1 / brand-led

Editable SVG ↓

Keep the scan short.

Logo → headline → offer → action.

**Keep the promise
specific.**

One service or package per creative.

Keep the footer quiet.

One domain. One necessary condition.

Design for the screen. And its edges.

1080 × 1920

9:16 / stories & vertical placements

A practical starting safe area.

250 px top and 340 px bottom. Placement UI can vary; confirm the current ad preview before publishing.

[Editable SVG](#) ↓

Compose the vertical version separately. Do not simply stretch a feed design or move the CTA into the platform's overlay area.

Same identity. A wider canvas.

Reach
what's next.

Websites, AI and digital products.

Start a project ↗

nextreachstudio.in

1200 × 628

Approximately 1.91:1 / landscape ad reference

Recompose, don't resize.

Keep the headline left. Give the emblem room on the right.

Editable SVG ↓

For a 1200 × 630 link-preview image, use the separate exported variant. Check the destination platform's current crop and compression.

A carousel should tell one story.

Hook → problem → approach → evidence → action.

One thought per slide. Repeat margins and logo placement. For results, show only measured, attributed project evidence.

The system leaves the screen.

Business card: 85 × 55 mm.

Proposal: A4 / 210 × 297 mm.

One-color mark for embossing or foil.

Layout specimens, not photographs of manufactured items. Keep logo clear space and use stock and finishes that preserve fine strokes.

Build the next ad in five moves.

1	2	3	4	5
Choose the job	Choose the frame	Write one idea	Add real proof	Check the preview
Awareness, a specific offer, or a demo.	Type-led, image-led, or offer-led.	One headline and one next action.	Show work; attribute measured results.	Phone size, crop, contrast, destination.

Current website offer reference

Quick Launch	Business	Premium Flagship
₹5,000	₹7,500	₹10,000
1 to 2 days / fixed scope	2 to 3 days / fixed scope	3 days / fixed scope

Delivery begins after approved scope, content, and assets. Verify current inclusions and pricing at /fast-websites before each campaign.

WhatsApp ad action: “Chat on WhatsApp” → a prefilled chat. General project action: “Start a project” → /contact. Demo action: “Explore the demo” → the actual demo.

Ready for the actual output.

RGB

Digital

sRGB / PNG for graphics
JPEG or WebP for photography
Export at exact placement dimensions

Keep an editable SVG master.
Recheck text after platform compression.

CMYK

Print

Use the printer’s ICC profile.
300 ppi for placed raster images
3 mm bleed / 5 mm safe margin

Convert fonts to outlines in final print artwork.
Proof terracotta on the chosen paper.

SVG

Vectors & handover

Preserve viewBox and proportions.
Use supplied monochrome masters.
Keep live text in the editable file.

The book PDF is a reference document.
Create press artwork to the printer’s spec.

File naming	nextreach_[campaign]_[format]_[variant]_v01.png
-------------	---

HEX and RGB are the digital source of truth. CMYK is output-profile dependent; there is no invented universal Pantone or CMYK match.

Everything you need for the next one.

Offer / portrait
